RECRUITMENT AGENT PRICING

A price that fits your programs.

We scope it around your programs and systems, then send a written quote.

START WITH A two-week proof of concept on one program website, AI credit included.

How we get to your price.

Why we scope first

Every campus has different programs, systems and intake dates. Scoping first means your price fits the programs you want covered. Your written quote shows what is included before you decide.

What we scope together

- How many programs and program pages you cover
- Whether it connects to your CRM, and who takes counselor handoffs
- Where it runs: hosted by CampusMind or in your Azure tenant
- When you want it live for your next intake

What you get

- Answers to everyday questions from the program pages you approve
- A handoff to a counselor when a question needs a person
- Counselors spend their time on the conversations that need them
- Campus data never trains models

Your path to a written quote

1. **Tell us about your programs.** Share your programs and systems on the pricing form.
2. **Run a two-week proof of concept.** On one program website, AI credit included.
3. **Talk it through.** Which programs come next, your CRM and who takes handoffs.
4. **Get your written quote.** Priced to your programs and hosting choice.
